<b>Annual General Meeting</b>	Tuesday June 17, 2025
<b>2025 Half-Year Results</b>	Thursday September 25, 2025

### About AFYREN

AFYREN is a French greentech company launched in 2012 to meet the challenge of decarbonizing industrial supplies. Its natural, innovative and proprietary fermentation technology valorizes local biomass from non-food agricultural co-products, in order to replace petro-sourced ingredients typically used in many product formulations. AFYREN's 100% biobased, low-carbon and sustainable solutions can meet decarbonization challenges in a wide variety of strategic sectors: human and animal nutrition, flavors and fragrances, life sciences and materials, and lubricants and technical fluids. AFYREN's plug-and-play, circular technology combines sustainability and competitiveness, with no need for manufacturers to change their production processes.

The Group's first French plant, AFYREN NEOXY, a joint venture with Bpifrance's SPI fund, located in the Grand-Est region of France, at Saint Avold, serves mainly the European market.

AFYREN is also pursuing a project in Thailand with a world leader in the sugar industry, and is developing its presence in the Americas, following up on previously signed distribution agreements.

At the end of 2024, the AFYREN Group employed about 130 people in Lyon, Clermont-Ferrand and Carling Saint-Avold. The company invests 20% of its annual budget in R&D to further develop the range of sustainable solutions.

AFYREN is listed on the Paris Euronext Growth<sup>®</sup> exchange since 2021 (ISIN code: FR0014005AC9, Ticker symbol: ALAFY).
