2026 Half-Year Results	Friday September 25, 2026 (before market opens)

About AFYREN

AFYREN is a French greentech company, founded in 2012, focused on providing innovative, sustainable solutions to reduce reliance on fossil-based resources. AFYREN's proprietary, nature-inspired fermentation technology valorizes local biomass from non-food agricultural co-products to produce 100% biobased, low-carbon carboxylic acids. The company's sustainable solutions address decarbonization challenges in a wide variety of strategic sectors, including human and animal nutrition, flavors and fragrances, life sciences, materials science, plus lubricants and technical fluids. AFYREN's competitive, plug-and-play, circular technology enables manufacturers to adopt sustainable solutions without modifying production processes.

The company's first industrial plant, AFYREN NEOXY, a joint venture with Bpifrance's SPI fund, is based in the Grand-Est region of France, serving primarily the European market. AFYREN is also pursuing a project in Thailand with a global leader in the sugar industry and is building its presence in the Americas, based on existing distribution agreements.

At the end of 2024, AFYREN employed 130 people across sites in Lyon, Clermont-Ferrand and Carling Saint-Avoid. Committed to continuous innovation, the company invests 20% of its annual budget in R&D to further develop the range of sustainable solutions.

AFYREN is listed on Euronext Growth® Paris since 2021 (ISIN code: FR0014005AC9, ticker: ALAFY).
